

## Press Release

### HuXinHu Tong (Megaeyes) platform integrated with Pelco Network Cameras

**Clovis, CA, and Beijing, China (January 31, 2013)** – Pelco™ by Schneider Electric™ and HuXinHuTong (Megaeyes) Co. Ltd. are announcing the integration of Pelco network cameras, including [Sarix™ Mega-Performance Cameras](#) (IX, IM, ID Series cameras), [Spectra™ IP High Definition cameras](#), and [multi-channel Network Encoders](#) with the full range of HuXinHuTong (Megaeyes) Video management platform.

“We are very excited about the new level of interoperability achieved between Megaeyes VMS and Pelco edge devices,” says Dave deLisser, director of integration business development, Pelco by Schneider Electric. “This successful collaboration demonstrates both companies’ commitment to openness. By working together we are able to provide our joint customers with the flexibility and solutions they are asking for.”

“Now the products from both companies have finished initial integration,” says XiangJiao, cooperation department manager of HuXinHuTong. “In the future, the two parties will leverage their own advantages and strengthen cooperation in the network video surveillance field to provide customers with better overall solutions for network video surveillance while enhancing the competitiveness of our projects.”

#### About Pelco by Schneider Electric

Schneider Electric offers integrated solutions across multiple market segments, including leadership positions in building and security management, energy, industrial processes, and data centers. Focused on making enterprises safe, reliable, efficient, productive and green, the Group’s 130,000-plus employees achieved sales of 22.4 billion Euros in 2011. Pelco by Schneider Electric produces the security industry’s most respected offering of discreet security camera domes and enclosures, video matrix systems, virtual matrix, video management software, next-generation DVRs, full HD LCD displays and HD megapixel cameras, IP cameras, and other IP/IT solutions. #### About HuXinHuTong (Megaeyes) Technology

Founded in Beijing in 2003, Beijing HuXinHuTong (Megaeyes) Technology Co., Ltd. is one of Beijing’s High and New Technology Enterprises, one of the “Double Software” Enterprises of Zhongguancun Science Park, and a member of China Software Industry Association, China Security & Protection Product Industry Association, China Video Industry Association, and National Technical Committee 100 on Security & Protection System of Standardization Administration of China, etc.

The company is positioned as a specialized provider of software/hardware products and services for the entire security & protection industry. When it comes to products and technologies, HuXinHuTong has always focused on research in IP broadband network-based video image/data management technologies, as well as the development of core technologies in image/data information processing and of broadband image/data value-added application solutions. In addition to independently developing core software/hardware products based on their network video surveillance system platform software, HuXinHuTong also offers compatibility with a wide range of other software/hardware products and provides customers in such industries as public security, electric power and transportation, and telecommunications, with total solutions for digitalized, networked, intelligent audio/video surveillance management, featuring large-scale networking, wide-range integration and massive-capacity load-carrying, combined with industry-specific deep applications. HuXinHuTong’s industry solutions also cover such sectors as finance, railroad, energy, agriculture, school campus, and environmental protection, and more.

Meanwhile, HuXinHuTong is China’s first provider of operation-class network video surveillance platform software and the founder of China Telecom’s “Megaeyes” network video surveillance service. Richly experienced in network video surveillance business operation and services, HuXinHuTong has participated frequently in the development of network video surveillance technical specifications for China Telecom, China UniCom and China Mobile. HuXinHuTong boasts the leading share in the network video surveillance platform market of these three major telecom operators.
